(High River Times)  
The Annual Methodist Church, High River, was held in the church on Wednesday evening, Feb. 11, at eight o'clock. A large audience was present and the best of good feeling and harmony prevailed. Reports were read from the Session, Board of Managers, Ladies Aid, Women's Mission Society, Sabbath School and Young People's Society, all indicating good work done and progress made. The rector's first of the following facts: First that not one cent of debt remains on any department of the church's work. That during the year a greatly needed Sunday School room, with basement was added to the church, costing some \$17,000. This has been paid entirely by voluntary subscriptions. # Britain Would Secure A Permanent Peace

London. — A full dress debate on the question of the proceedings of the peace conference, in regard to the payment of indemnities, took place recently. A number of members expressed appreciation that Germany might succeed in her efforts to avoid payment in full.

It was pointed out that Germany might be bankrupt now, but that the development of her resources would enable her to pay. Furthermore, it was not the business of the delegates at Paris to say what Germany could pay. Their affair was to present the bill; it was Germany's business to find ways and means of meeting her obligations.

Andrew Bonar Law, replying, did not think that there was any foundation for the statement that Lomax's government had offered certain terms of peace. Neither he nor the prime minister knew anything about it. In regard to indemnities, Mr. Bonar Law stated that the government still intended to get from Germany what ever amount could be got from her. In this connection, they had not been influenced by President Wilson. Looking at the whole problem of the war, Britain's aim was to secure peace now and hereafter in full.

Unless, as a result of the war, the closest possible understanding eventuated, not only with France, with whom we had been all the time on good terms, but also with the United States, with whom there had been a lot of misunderstanding, a great deal would have been lost. The government recognized the greater difficulties of some of our allies and decided to be fair to them. The section with reparation the government must be just to the empire as regards the disposal of money. Up to recently the reparation problem had taken no decision as regards the amount of the claims. It was only fair, to assume that the representatives in Paris were as keen as the house to get the largest possible amount and that on the question of examination from that standpoint this argument was equally applicable to the allies.

He hoped that whatever was done, would be done by all the associated powers, but Franco-British interests were more direct than United States.

## HAD WEAK and FAINTING SPELLS

Those feelings of faintness, those weak, "all gone" sinking sensations, which come over some people from time to time, are warning that nature is not so unimpaired.

They mean an extremely weakened condition of the heart and a disordered nervous system.

When the system is in this condition there is no time for delay. One fainting spell may be followed by another—will the next? One dizzy spell may pass off, but the next may be more serious.

Those who are wise will start taking Milburn's Heart and Nerve Pills, before their system becomes deranged and perhaps before they realize it.

They will act directly on the disordered heart and weakened nervous system and restore them to full strength and vigor.

Miss Mary McCoy, Algoma, Mich., Ont., writes: "I was usually troubled with fainting and weak spells, and I could never get any doctor's medicine to help me. One day a friend of mine was at the house when I took one of these pills, and she gave me a box of Milburn's Heart and Nerve Pills. That was six years ago and I have not had any of those spells. I would not be without my pills for any money, and can highly recommend them to any one."

Milburn's Heart and Nerve Pills are the only pills at all dealers, or mail order direct from the manufacturer, T. Milburn Co., Limited, Toronto, Ont.

# Britain Will Exact Utmost Farthing

London. — In the house of commons, the government was today engaged in a great deal of discussion concerning the amount of indemnity which Germany is to be asked to pay.

Col. Lawton, Unionist, declared that the delegates to the peace conference in Paris, needed to be reminded that a majority of the members of the house of commons solemnly had pledged themselves to exact the utmost farthing from the Germans. He said he hoped Great Britain was not repeating the United States and leaving behind President Wilson, who could philosophically bear every country's financial

## May Take Over G. T. P.

Stated as Probable Outcome of the Present Situation

Ottawa. — That acquisition by the government of the Grand Trunk railway will probably be the outcome of the present railway situation, was a statement made by Sir Thomas White, when the bill confirming the appointment of a receiver for the Grand Trunk Pacific was being considered in committee.

Sir Thomas said he could not make this statement definitely, and suggested as possible alternatives that the government might resort to suit or foreclosure.

There was some criticism of the action of the government by Major Thos. A. Vieu, Lethbridge, who suggested that an order in council appointing a receiver had been passed before the government had declared its railway policy.

R. L. Richardson, Springfield, declared that there appeared to be a conspiracy on the part of certain newspapers to help the Grand Trunk. He suggested that the Grand Trunk company should be treated with generosity. There was nothing but public ownership, he said.

Sir Thomas White, in the course of further remarks, explained that, on the subject of the government, he would not pay interest guaranteed by any of the provinces. The government would only pay enough to cover the interest on the Grand Trunk company should be treated with generosity. There was nothing but public ownership, he said.

Speaking at a late hour, Hon. Arthur Meighen stated that no step had been taken by the government which constituted unfair treatment. There had been, he said, a fair offer of arbitration, with no final limit fixed as was done in the case of the Canadian Northern.

## Hungarian Nobles Search for Work

Baron Hatzway Now a Clerk in Private Business

Berlin. — Reports from Budapest declare that the people are fleeing in increasing numbers from that territory. One hundred and forty prominent political figures have been arrested, including Joseph Szasznegh, former minister of commerce, and Count George Karolyi, both of whom are in danger of being sentenced to death.

Baron Hatzway, a millionaire owner of a newspaper, is now a clerk in a private business, and other members of the nobility whose property has been confiscated, are searching for work.

## May Have Summer Fair

Moose Jaw. — If the citizens and business men of the city are interested enough to get behind the project, it is probable that a summer fair will be held this year, the probable dates being August 5 to 8. Strong committees have been appointed by the Moose Jaw agricultural society to make a canvass of the city and district to ascertain the prospects.

## Golf Links on Vimy Ridge

Windsor, Man. — The Canadians have laid out a nine-hole golf course on Vimy Ridge, the capture of which by the soldiers of the Dominion was one of the achievements of the war. The news comes in a letter from an officer in France. It is stated President Wilson will be invited to play on the historic links.

## The Case of Captain Fryatt

German Investigation of Execution of British Sea Captain Leads to Usual Excuses

Berlin. — At a continuation of the investigation into the execution of the British mercantile marine captain, Charles Fryatt, by the Germans in 1916, Prof. Schaeckling, a member of the investigating commission, explaining the reasons on which the verdict of death was based, declared there was no obligation under international law to grant the request of the American embassy to appoint a defender for Captain Fryatt. The foreign office, Prof. Schaeckling said, made endeavors in this direction, but various circumstances rendered such action impossible.

He argued that there was in existence a principle of war usage, making a private person assassinating a part of a belligerent force liable to the death penalty for war treason.

The commission investigating the execution of Captain Charles Fryatt by the Germans in 1916, has decided that the shooting of the captain did not violate international law. The commission has also expressed regret at the rapidity with which the sentence was carried out, according to advice received here from Berlin, where the investigation was held.

## Invalids From Siberia

Vancouver. — The C.P.R. steamship Empire of Japan is expected to arrive April 9 from the Orient, carrying a number of invalid soldiers and officers from Siberia. According to information received here the Japan has 704 men and six officers on board.

## The Yellow Peril

Captain Martin Smith Says Japanese Will Not Tolerate Discrimination

Ottawa. — "We have finished the fight over yonder, but this has not by any means settled the world problem," asserted Captain Martin-Smith of Vancouver, who is stopping in Ottawa for a few days on his way home. "Canada has to face, as she never has before, the yellow peril," he continued. "The Japanese is a high spirited man, and if discriminated against, he feels slighted."

Captain Smith held out fears that the world may yet be in the throes of a death struggle when the white and yellow races, comprising the Japanese, Chinese and possibly other oriental nations, clash for world supremacy.

## Stuttgart in State of Siege

Street Traffic Forbidden After Nine O'clock at Night

Stuttgart, Germany. — The government has proclaimed a state of siege in the city of Stuttgart, and its environs. All shops, theatres and public places must close from eight in the evening until 9 o'clock in the morning and all street traffic is forbidden after 9 o'clock at night. The curfew strike which was called as a protest against the general sale out of workmen has been joined by tradesmen, merchants, manufacturers, state and municipal officials, doctors, and chemists. No local papers are issued and postal and tram car services have been suspended.

# Allied Forces in Danger in Russia

## Made Admirals of the Fleet

London. — The King has approved the promotion of Admiral Vice-Admiral John Jellicoe and Vice-Admiral Sir David Beatty to be "Admirals of the Fleet," in recognition of their distinguished war service.

If you are killed, your condition is destroyed, nature is given a chance and cure comes quickly. Colds and throat troubles can't last if the pure healing vapor of Catarrhogene is inhaled—sneezing and coughing cease at once, because irritation is removed. Use Catarrhogene to prevent—use it to cure your winter flu—it's pleasant, safe and guaranteed in every case.

London. — The serious situation in the Murnank region, and the attempt by the Bolsheviks to drive the allied position and arrest the advance into the area are the cause of much anxiety here.

Sir Ernest Shackleton, the explorer, who has just returned from Russia, where he wintered, is wintering outfitting and feeding of the expedition, confirmed the danger to the allied position and arrest. He is credited with stirring British officials into a keener realization of the seriousness of the position in Russia.

Sir Ernest Shackleton is director of equipment and transport of the northern Russian expeditionary forces and has visited points from Murnank and Archangel. He declared in an interview that both fronts are in danger, and that the Bolshevik peril is a very real one, because the Russian forces are outnumbered by disciplined and well armed and equipped forces in close touch with the allied position and by no means strong front.

The northern Caucasus from the Black sea to the Caspian sea, has been entirely cleared of the Bolsheviks as the result of the successful campaign of the army of Gen. Denikin in that region in January and February, according to an official report issued here.

The anti-Bolshevik leaders, fighting having ceased, are forming new forces of Cossacks and other natives. The report says that the capture of Vladivostok by Gen. Janina, 28th troops under Gen. Sluro, completed the campaign against the Bolsheviks, in the 20,000 strong army of Gen. Janina, 2,000 guns, 330 machine guns, 100 locomotives and thousands of railway cars were taken.

A report from Odessa on February 13, said that the army of Gen. Denikin had scattered a Bolshevik army of 100,000 men, of whom 20,000 and 31,000 were made prisoners.

Failure of the offensive in the direction of Tulkum, in Conland, west of Riga, is admitted by the Russian Soviet government in a wireless message received here.

The message adds that fighting is in progress in the direction of Minsk southwest of Riga, and in the region of Pskov, northeast of Riga.

## A CHILD HATES OIL, CALOMEL, PILLS FOR LIVER AND BOWELS

Give "California Syrup of Figs" if it cures, sick, peevish, constipated

Look back at your childhood days, remember "doctors" who prescribed oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who insist that their children of physic simply don't realize what they do. The children's revolt is well founded. Their "little friends" are injured by them.

Give "California Syrup of Figs" for liver and bowels need cleansing, give only delicate "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fig" laxative handy. They know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach; and that a teaspoonful today saves a sick child tomorrow.

Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages, constipated, bilious, nervous, peevish, sick, or indigestion. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Use only any other kind with contempt.

Gen. Byng Not Leaving Africa. London. — Although Gen. Byng has declined the Salisbury command, it is understood he is not quitting the army entirely, as has been stated.

# Bolshevik Propaganda Spreads in Germany

London. — Describing the outlook in Germany, the Berlin correspondent of the Mail says the crisis which is rapidly approaching seems certain to be grave than ever the January or March outbreaks.

"One of the storm centers is Berlin, especially Munich," he writes. "The situation in southern Germany has completely changed during the last three weeks. Thousands of people, including many workers, are now meeting at all unauthorized Bolsheviks is advocated and

## LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

You reckless men and women who drive the automobile, you who have at least once a week invited an awful death from lockjaw or blood poisoning, you are told by a Chemist authority to use a drug called "Corn Lift," which is a free drug, and is applied to any corn, the secretion is pulled and soon the corn is gone. It is a sticky ether compound which drives the monstrosity in and simply absorbs the corn without touching or even irritating the surrounding tissue or skin. It is a free drug, and is so effective that it can be used on any corn, or corn callus.

## Did Not See Kaiser

Report of Interview by Begbie Has Been Denied

London. — The articles in the London Chronicle by Harold Begbie, describing his visit to America, questioning the former German leaders, alleged state of mind, charging Russia with responsibility for the war and asserting his innocence of any guilt, have attracted wide attention. The London bureau of the Associated Press received the following telegram:

"Amersfoort.

"Harold Begbie has not had an interview with the former emperor. His written questions remain unanswered. He did not receive any authorization to publish the emperor's views, and no statement was intended to him. He never saw the emperor, neither did he enter the castle gates.

McLaughlin 1919 models is  
the result of an unwavering fideli-

No radical changes mark the new

re-designed.

## A famous tractor—the Fordson

THE Fordson tractor has at-  
tracted the attention of every  
civilized country. It is used  
by thousands in Europe today. It  
has shown the way to make farms  
produce more—in every country—  
and of every size.

Built right—simple, durable,  
economical, easy to operate—easy

to care for; the Fordson fulfills  
every requirement. It will make  
your farm a more profitable invest-  
ment—will take worries off your  
shoulders.

Burns kerosene—all gears are  
enclosed. The Fordson is built  
especially to meet the need for a  
tractor which must be cared for by  
the operator himself.

## Use it with the Oliver No. 7 Plow

Good plowing—every acre exactly as you want it—that's the  
result of using the Oliver No. 7 Plow especially designed for the  
Fordson tractor. Trash and weeds are buried at the bottom of  
the furrow; the stop device maintains an even depth of furrow.  
It's the plow that works to the best advantage with this tractor.

Come in and let us show you the Fordson tractor and Oliver  
plow.
